

## PRODUCT INFORMATION

JULY 2017

# BRP5216 Safety Barrier Reel

The BRP5216 safety barrier reel is an innovative storage & retrieval system containing 16 metres of red/white safety band designed to provide a temporary visual barrier to clearly identify hazardous or dangerous areas in the workplace and around public areas.

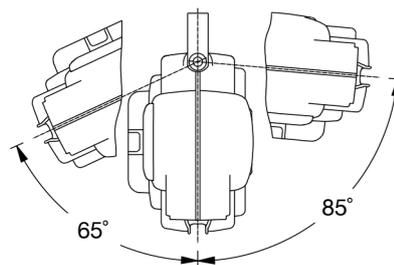

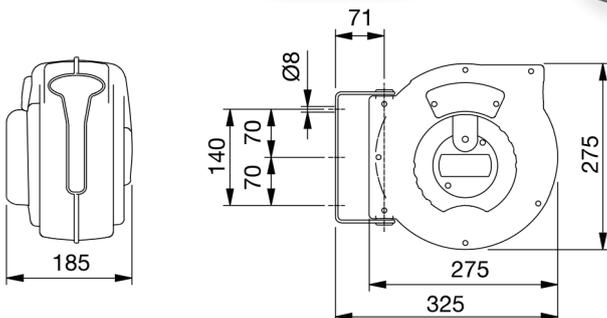

The durable, long lasting red/white safety band is complete with a circular hook/eyelet that easily attaches to any suitable fixing point up to 16 metres from the reel.

The robust plastic outer casing contains an automatic spring rewind mechanism that efficiently rewinds the safety band for storage after use and the reel can be mounted/demounted via the integral swivelling steel wall bracket.

Always good to have on hand, the BRP5216 safety barrier reel available from Alemlube is a user friendly, compact design reel and a must for addressing workplace and employee safety.
