

O30040

Oil Transfer Kit with On/Off Gun

September 2019

The Alemlube EL Series O30040 Oil Transfer Kit with On/Off Gun is the ideal oil transfer kit for dispensing oil with a maximum viscosity of SAE130.

Representing excellent value for money, the Alemlube EL Series O30040 gives you the opportunity to upgrade from standard hand operated oil drum pumps to a pneumatic solution.

Delivering up to 12L/min with a 3:1 ratio pump, the O30040 is suitable for use with 205L oil drums to perform intermittent or seasonal work.

The oil control valve with ergonomic grip is easy to operate and features a lock on device for your convenience.

Smart design with fewer working parts effectively facilitates a lower cost of ownership.

With spare parts readily available around the country and our own factory trained technicians available to provide after sales service support the O30040 is ideal for small to medium size workshops moving low to medium volumes of oil daily.

SPECIFICATIONS, FEATURES AND BENEFITS

- Effortless oil transfer
- Smart design with fewer moving parts
- Delivers up to 12L/min
- Maximum operating pressure of 450psi (30bar)
- Maximum oil viscosity of SAE130
- Heavy duty oil control valve
- Air consumption of 3.6cfm at 150psi
- 1/2" BSP(m) oil outlet
- 1/4" BSP(f) air inlet
- Inlet filter protects against foreign particle contamination
- Tested to 600,000L
- Noise level of 82dB
- Saves time and increases productivity
- Low cost of ownership
