March 2020

The Alemlube 20066N2 LED & UV Inspection Light has been designed, developed & manufactured specifically for providing valuable assistance when undertaking close inspection work under & around vehicles and other applications requiring well-lit detailed inspection.

The UV light is ideal for detecting Ultra Violet leak detection dye used in vehicle air conditioning systems.

The 20066N2 features two light sources, two strong magnets (back & base), two fold away hanging hooks and has a 180° adjustable handle for absolute versatility.

High moisture intrusion and impact resistance ratings protect the 20066N2 LED Inspection Light to enhance its reliability and longevity in the workshop.

SPECIFICATIONS, FEATURES AND BENEFITS

- Gas leak detection capabilities
- 4W COB LED, 400lm on body
- 3W SMD LED, 100lm on top
- 80 CRI to illuminate true colours
- 6500K
- 3.7V 2200mAh Li-ion battery
- 3 hour main light run time
- 10 hour top light run time
- 28 hour top UV light run time
- 3.5 hour charging time
- 180° adjustable handle
- 3 strong magnets
- 2 foldaway hanging hooks
- IP54 foreign objects / moisture intrusion rating
- IK07 impact resistance rating
