## 20055 LED Flood Light

2100  
Lumens

Aluminium Structure  
Ensures High Performance

Adjustable Stand for  
Multi-Purpose Uses

Intelligent  
Battery Indicator

November 2021 Update

The Alemlube 20055 LED Flood Light is the ultimate worklight providing superior illumination for many applications in the workshop, in factories, around the home and for outdoor use.

Any one of three brightness levels can be selected giving up to 9.5 hours of use before recharging is required.

The 20055 also features an intelligent charge indicator, a 180° adjustable stand for multi-purpose use and a robust aluminium structure ensures reliable performance and longevity.

Furthermore, the 20055 LED Flood Light embodies superior impact and water resistance ratings.
