6820HAS

Mobile AdBlue® Storage and Dispensing Kit complete with Rotary Drum Pump

The 6820HAS Mobile AdBlue® Storage and Dispensing Kit complete with Rotary Drum Pump is ideal for transporting and dispensing AdBlue® easily and efficiently, directly to the vehicle.

Featuring a unique design with ergonomic grip for ease of handling and lifting, the tank is equipped with solid 8" PU wheels suitable for mobility on any surface.

The tank is manufactured in roto-molded linear polyethylene, is impact resistant, UV stabilised and fitted with a filling cap complete with integrated air vent device.

Supplied standard with a manual rotary drum pump with spout and 4m of delivery hose.

* Please note that the pump must be thoroughly washed, cleaned and free of AdBlue® internally after each use. AdBlue® when in contact with air will bind the internals and may break the pump, voiding manufacturer and Alemlube warranties.

PRODUCT SPECIFICATIONS, FEATURES AND BENEFITS

Tank capacity of 68 litres
