

## PRODUCT INFORMATION

JUNE 2016

# 70365N Parts Washer

The 70365N parts washer consists of a 50 litre capacity cleaning tank mounted on a 65 litre capacity wheeled reservoir. Ideally suited to cleaning small engine components, vehicle parts and machine tools, the 70365N does not require a pump, simply prime with air. Being safe and easy to use the parts washer complies completely with OH&S and environmental regulations and the reservoir drain valve facilitates efficient removal of waste liquid.

### PRODUCT SPECIFICATIONS, FEATURES AND BENEFITS
