600ACB

450g Clear Barrel Lever Action Grease Gun

The 600ACB clear barrel lever action grease gun is a cost effective alternative for intermittent, periodic and specialised greasing, in particular when using more expensive grease typically used for lubricating food grade equipment and for critical grease points.

The 600ACB with its clear acrylic barrel is differentiated from the traditional grease gun steel barrel and presents the real benefit of clearly identifying the type of grease cartridge loaded into the gun. 100% visibility ensures that expensive grease used for critical lube points on key plant is not wasted on non critical, bushes, pins and bearing housings.

Featuring an ergonomic lightweight aluminium die-cast head assembly, patented Ever Flow System enabling the use of thick/tacky greases even at low temperatures and the Twin Lock System, the German engineered & manufactured 600ACB 450g lever action grease gun is a dependable and proven performer.

The 600ACB is also suitable for use with both 450 gram cartridges and bulk grease.

PRODUCT SPECIFICATIONS, FEATURES AND BENEFITS

100% visibility ensures that expensive grease used for critical lube points on key plant is not wasted on non critical, bushes, pins and bearing housings

Develops grease pressures up to 12,000psi (828bar)

Delivery rates of up to 1.6g of grease per stroke

500g capacity when using bulk grease

Handles up to NLGI2 grease

Three way loading

16.5mm rigid extension

Heavy duty four jaw coupler

Coarse thread on barrel eliminates the chance of cross threading
